

LED Projector & Washer Light

Features

- The utility model has the advantages of enhanced aluminum alloy lamp body, stainless steel end cover, light body and base separated structure, beautiful appearance and firm structure;
- Innovative lighting, light utilization increased by more than 40%, to achieve a high degree of uniformity of illumination;
- Inclined lighting surface, effective control glare;
- The utility model has the advantages that: the utility model has the advantages that: the utility model has the advantages that: without bracket base, the structure can be rotated without screws, the direction of the light can be rotated freely, the scale is accurate, and the positioning and installation is convenient;
- The bottom of the groove, hidden lines, the overall appearance;
- Isolated wire feeding structure, which can effectively prevent the cable from water vapor;
- Piston type waterproof structure, waterproof up to Ip66;
- The design of power supply and signal protection against surge lightning ESD reverse circuit protection; up to 4KV.
